

Product Roadmap

(Kim Yeonju)

2021 FIP	Quarter 1 (3/15-3/21)	Quarter 2 22-3/28	Quarter 3 3/29-4/4	Quarter 4 4/5-4/11
Logo Design /difference graphic posters	<div>Complete logo and label design</div>	<div>Make a wide range of promotional images</div>	<div>Adjust on the website</div>	<div>Make some fun animations with labels</div>
	<div>Take some feedback</div>	<div>think of which elements bring lots of people's eyes on the product</div>		<div>refer nice animation effect from web portfolio site</div>
Rendering a Bottle of Beer	<div>Learn how to render specifically</div>	<div>Study light effect and background keep trying to modeling till the perfect!</div>		<div>Keep retouching to look realistic texture</div>
		<div>Try all functions from cinema-4d find out awesome skills. research some nice references and learn from that</div>		<div>Study light effect and show items from unique angle of camera</div>

Web Coding Process

Design 5pages of
websites

wireframe and
design in XD

Test user
experience with
Prototype

Share the
prototype with
people and get
some feedback

Keep Coding..

look up some nice js effect
and useful functions

Add some js effect
css3 animation
